TECHNICAL SKILLS

Languages: Java, JavaScript, SQL

Developer Tools: VS Code, Google Colab, Jupyter Notebook

Technologies/Frameworks: ReactJS, Redux, NextJS, Git, MongoDB, Tailwind CSS, TensorFlow

Version Control: GitHub, Git

EDUCATION

Rajasthan Technical University

November 2021 – May 2025

Bachelor of Technology in Electronics and Communication - CGPA - 8.30

Kota, Rajasthan

S.R Public Sr.Sec School

April 2019 – March 2020

CBSE–Higher Secondary Education (XII)– Percentage - 84.20%

Kota, Rajasthan

Projects

Pitch Management App for Startups [↗](#)

Description: Developed a web application to assist startups in creating and managing their pitch presentations.

- **Technologies Used:** Next.js, Tailwind CSS, Sanity.io, NextAuth, Vercel
- **Interactive Dashboard:** Provides an intuitive interface for users to add, edit, and manage pitch details with markdown support for formatting content.
- **Dynamic Content Management:** Integrated Sanity.io as a headless CMS to enable flexible and seamless data handling for user-generated pitches.
- **Real-Time Analytics:** Tracks live views on pitch presentations, offering valuable insights to users.
- **Scalable Deployment:** Deployed on Vercel, enabling global accessibility with low latency.

AI PDF Assistant [↗](#)

Overview: Created an AI-powered tool enabling users to interact with insights from PDF documents.

- **Key Technologies:** Next.js, Tailwind CSS, Vercel, Clerk, Gemini AI, Convex
- **AI-Powered Insights:** Integrated Gemini AI to process uploaded PDF files and answer user queries based on document content.
- **User-Friendly Interface:** Designed a responsive and clean UI for document upload, interaction, and query responses.
- **Efficient Data Handling:** Implemented Convex as database backend for efficient storage and retrieval of document data
- **Secure Authentication:** Integrated Clerk authentication system ensuring secure user access and data privacy
- **Scalable Deployment:** Deployed on Vercel, enabling global accessibility with low latency.

INTERNSHIP

CodeSpeedy Technologies

June 2023 – July 2023

FrontEnd Developer

- **Overview:** Collaborated with a team to design and develop responsive web applications.
- **Weather App:** Developed Weather App integrating real-time APIs for location-based forecasts.
- **Random GIF Generator:** Created Random GIF Generator utilizing third-party APIs with interactive user interface.
- **Recipe App:** Built Recipe App featuring advanced filtering and categorization capabilities.

Coding Profile

Leetcode: Active Problem Solver (**Profile**)

GeeksForGeeks: Regular participant in problem solving and concept learning (**Profile**)

GitHub: Consistent code contributor and project collaborator (**Profile**)

CodeChef: 2-Star rated competitive programmer (**2 Star**) (**Profile**)
